Subject: FW: An important message for our partners

February 25, 2025

Dear Agency Partners -

We have been asked by a number of partners for guidance on how to respond in the event that an immigration enforcement agency shows up at a food distribution. To our knowledge, this remains a hypothetical question, as we are not aware of any activities like this.

It is important to note that MOFC is not in a position to provide legal advice in these matters. If any partner believes that the information below is not sufficient, we would recommend that you consult with counsel to determine how you and your organization will respond.

That said, here are some resources that have been shared with us and that we are passing along for your consideration.
